Gold Medal Schools Status Change

If your school decides not to proceed to the next criteria level for two consecutive years you will need to complete a status change form.

By completing the status change form your school's status will change from active to participating.

Active Gold Medal School: An active Gold Medal Schools is defined as a school that is working towards completing the next level in the Gold Medal Schools program. A school may maintain the level they achieved the previous school year for one year and still be considered an active school if they plan to achieve the next level the next school year.

An active Gold Medal School has access to all GMS resources including a mentor, listserv messages, awards material, awards money, recognition in the annual GMS Ad, trainings, etc.

Participating Gold Medal School: A participating Gold Medal School is defined as a school that is continuing to implement the criteria achieved in previous years but is not progressing to the next level by implementing new criteria. All participating Gold Medal Schools are still considered Gold Medal Schools.

A participating Gold Medal School will continue to receive listserv messages and is encouraged to visit the GMS Web site frequently. A mentor, awards materials, awards money, recognition in the annual GMS Ad, trainings, etc. will not be available.

We would like to thank you for completing the status change form so we can update your contact information to ensure that you will continue receiving the listserv messages. The information you provide on the form will also help us better serve our schools.

Status Change Form

Status Change Information

Effective Date		
School		
Mentor		
Principal		
Principal E-mail		
School Coordinator		
School Coordinator E-mail		
Highest level achieved		
Reason for status change		
Were you satisfied with GMS?	Yes	No-Please explain

Please send this form to your Local Health Department Representative.
